Front-end Web Developer with over 3 years of experience in product design and a strong understanding of design principles, I have a proven ability of turning user ideas and requirements into tangible and innovative products using the latest web development tools and technologies. Enjoy collaborating with experts and design teams to create designs backed by research and testing. Being passionate about both personal growth and software development, I recently attended a 500+ hour coding bootcamp to further enhance my skills and stay up to date with the latest technologies.

Professional Skills

Technical:

- React, HTML, CSS, Server-Side CSS, Bootstrap, Tailwind, JavaScript (including jQuery), APIs, Node.js and Test Driven Development (TDD).

Applications:

- GitHub, Git, Visual Studio Code, Slack, Discord, Jira, Adobe Products (expert in Photoshop, InDesign and Illustrator), Figma, Blender (for 3D animations).

Soft:

- Strong interpersonal skills demonstrated by communicating with clients, teams and non-tech professionals on a daily basis.
- Strong attention to detail.
- Creative problem-solving skills.

Experience

Front End Web Developer at MMGY Global (2023-current) - London, UK

New role started on May 30, 2023. Full description TBA:

- Web development
- Product design
- Google Web Designer

Product Design & Web Development (2019 - Present) – Remote & South America

Working as a product designer, my main responsibilities include collaborating with clients to turn their ideas into real, tested, and refined products.

- Developed front-end websites using HTML, React, Tailwind CSS and JavaScript showcasing client portfolios to boost social reach.
- Identified and implemented dynamic web solutions in accordance with client standards and requirements.
- Helped clients develop initial concepts and ideas to final products through design processes (Physical products and websites)
- Designed and conducted user research that tested and refined products.
- Collaborated with external partners such as suppliers and contractors to ensure project execution and timely delivery.

3D Designer & Web Developer at Martha Larco Espacio (2021 - Present) - Remote

Right-hand person of the head interior designer, I assist with design decisions and manage contractors and suppliers. I also took charge of updating the firm's website to reflect its identity and style.

- Advised on design and adapted the firm's web page to be responsive, include latest projects and contact forms to increase web traffic.
- Lead meeting and design sessions to understand client needs and deliver high standard proposals.
- Assisted the head interior designer with scenes and visualization.
- Converted CAD models into highly detailed 3D spaces that serve as a decision-making tool prior to client presentation, which increased the chances of the client picking the proposal by 70%.

Design Advisor at Induvallas Cia. Ltda. (2020-2021) - Remote

All-round advisor for web and product design, as well as digital marketing, I developed a new brand identity and designed physical products that seamlessly blend with their environment.

- Collaborated with web developers to implement UI Designs into WordPress website.
- Lead and revamped the company's visual identity after more than 20 years without an update.
- Assisted the digital marketing team advertising projects for younger audiences in different cities, they boosted social media interactions by 275%.
- Advised on design for physical products that blended with their environment.

Education

- **edX** (2022-2023) - Online
Front End Web Development bootcamp
- **Ravensbourne University** (2016 –2019) - London, UK
Bachelor of Arts (BA) Product Design
- **Parsons School of Design** (2015) – New York, USA
Foundation Studio: Product Design

Projects

CineMatch, final group project for edX

A responsive React app with Tailwind CSS. CineMatch is a tinder inspired app for movies. You discover new movies based on a criteria and then swipe to save your favourite ones.
